

# That's Our Freedom

Jeff Lee ©2025

Key of A

My neighbor, my neighbor over twenty years  
Never had no reason to live in fear  
Now people come around, say "You can't stay here,"  
They better keep their hands off now

I say: That's my neighbor! (That's our neighbor!)  
That's my neighbor! (That's our neighbor!)  
That's my neighbor! (That's our neighbor!)  
They better keep their hands off now

My sister, my sister got a right to do  
With her own damn body, what she chooses to  
Some people wanna tell her that it just ain't true  
They better keep their hands off now

I say: That's my sister! (That's our sister!)  
That's my sister! (That's our sister!)  
That's my sister! (That's our sister!)  
They better keep their hands off now

My brother, my brother, he's a working man  
He'll work for his pay as long as he can,  
Some people wanna take away his pension plan  
They better keep their hands off now

I say: That's my brother! (That's our brother!)  
That's my brother! (That's our brother!)  
That's my brother! (That's our brother!)  
They better keep their hands off now

My children, my children, born to be free  
To be who they are no matter who they be  
Some people wanna make 'em be a "he" or a "she"  
They better keep their hands off now

I say: That's my children! (That's our children!)  
That's my children! (That's our children!)  
That's my children! (That's our children!)  
They better keep their hands off now

My people are proud, though they might be poor  
They're working the fields and the factory floor  
Some people say they can't see a doctor no more  
They better keep their hands off now

I say: That's my people! (That's our people!)  
That's my people! (That's our people!)  
That's my people! (That's our people!)  
They better keep their hands off now

My sister and brother, my neighbor and child  
We gonna take our freedom back right now  
Don't matter if we gotta march a thousand miles  
They better keep their hands off now

We say: That's our freedom! (That's our freedom!)  
That's our freedom! (That's our freedom!)  
That's our freedom! (That's our freedom!)  
They better keep their hands off now  
They better keep their hands off now  
They better keep their hands off now
